Forthright.

SharePoint Optimization Services

Level Up to a Modern Intranet

Accelerate the transition to virtual operations that empower and simplify information sharing between physicians, nurses, home care providers and staff

CREATE YOUR HUB TODAY - A "NEXT LEVEL" INTRANET THAT MIRRORS YOUR BRAND

The One Platform All Employees Will Use to Start Their Day

Forthright ShareIT Services offers cutting-edge SharePoint optimization solutions that empower businesses to create a central hub for their employees. This hub serves as a go-to platform for accessing files, applications, and crucial information. It fosters a sense of engagement and productivity throughout the organization.

With our expertise, organizations can establish a maintenance-free Intranet that is easily upheld by department heads, eliminating the need for technical personnel to handle day-to-day operations. This approach allows each department to maintain its unique identity while cultivating a collaborative environment within the organization.

Optimize Your Intranet, Streamline Workflows, and Empower Your Employees

Go-To Spot for Information
Use your employee hub for dispersing company information & updates, managing forms, and accessing training resources

Central Hub for Employees
Drive employees to one location for all their applications, data, company directories, and files for their department

Easy to Maintain
Once your Intranet is set up, it is easy for department heads to maintain with no technical resource needed

Key Features of our SharePoint Optimization Solutions:

Central Hub
A unified platform where employees can access files, applications, and receive important updates. This hub serves as a central place for all essential resources.

Empowerment
Once set up, the Intranet becomes a self-sustaining system. Department heads can independently maintain data, apps, and files specific to their departments, ensuring streamlined workflows.

Company-Wide Directory
A maintenance-free, comprehensive company-wide directory accessible through the hub. This directory streamlines communication and collaboration, ensuring employees can easily connect with one another across the organization.
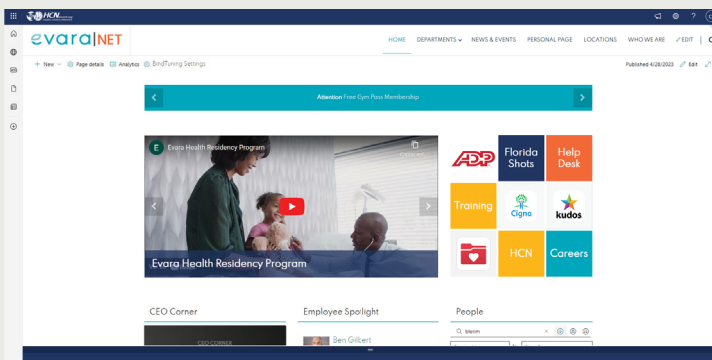

Document Workflows
Enable efficient management of document workflows within the Intranet hub. This solution simplifies document processes (like HR requests), enhances accessibility, and improves overall efficiency.

Industry-Specific Solutions
We offer specialized SharePoint solutions tailored to the unique needs of healthcare organizations. Leveraging expertise in health industry themes and web parts, we ensure that healthcare organizations have access to the specific tools and functionalities required to enhance their intranet experience.

HCN CENTER SPOTLIGHT: EVARA HEALTH

SharePoint Optimization Creates Go-To Hub For Employees

Evara Health's Intranet is now being used as a hub for every employee. Their older version of SharePoint was cumbersome and in need of a refresh. By partnering with Forthright, Evara Health now benefits from a higher performing and more inclusive Intranet solution, enabling employees to start their day from a centralized and engaging platform.

> "Forthright guided us in the right direction and suggested the proper product for building our first ever Intranet on the SharePoint platform. They listened and understood our needs well and helped us deliver a great product that was very welcomed by the organization. One of the most important features we provide our user base with is the Employee Directory, so they can easily find anyone in the organization with the click of a mouse. It's been a pleasure to work with Forthright on this project and I am looking forward to many more in the future."

Blerim Kaciu, IT Manager, Evara Health

Improved Workforce Communication and Collaboration

Enhance communication and collaboration across different locations within the healthcare industry, fostering seamless information sharing and effective teamwork.

Optimized Utilization of Office 365 Products

Address the urgent needs of digital health by leveraging your investment in M365. Rapidly deployed, our code-free solutions dramatically accelerate decision making and information sharing, impacting the patient experience in real-time.

Increased End User Adoption

Create a relevant and engaging Intranet experience that encourages widespread adoption among employees, ensuring its effective utilization.

Enhanced Productivity

Create a modern digital workplace where people feel connected, information is accessible, and work feels easier. By providing a centralized hub that consolidates resources and simplifies access, employees can efficiently navigate workflows, leading to increased productivity.

Security and Compliance

Gain confidence in your data integrity with your site built on a secure platform, ensuring compliance with key regulations such as HIPAA, SOC 1, SOC 2, GDPR, and more.

Self-Sufficiency and Reduced Dependency

Empower the organization to be self-sufficient in managing the Intranet, eliminating the need for constant reliance on IT resources.

Experience the Power of SharePoint Optimization for the Healthcare Industry: Take your SharePoint Intranet to the next level with Forthright Technology Partners.

Contact us today to discover how our tailored IT solution can optimize your Intranet, streamline workflows, and empower your organization with enhanced collaboration and productivity.
